# MESSAGE FROM THE DIRECTORS

  
Peter Jaffe  
Academic Director

  
Barb MacQuarrie  
Community Director

  
Linda Baker  
Learning Director

A quarter century ago, the Centre began as a vision by Western, The London Coordinating Committee to End Woman Abuse and Fanshawe College to create a centre of excellence on applied research to end violence against women and children. The initial vision continues to be realized and expanded with our community and provincial partnerships. In recent years the Centre has exceeded all expectations in receiving almost 6 million dollars in multi-year funding from multiple organizations that have allowed us to take our work to a national and international stage. Funding from the Social Sciences and Humanities Research Council (SSHRC), the Public Health Agency of Canada (PHAC), and the Ontario Ministry of the Status of Women has allowed us to address major challenges in the field. We are enhancing research and practice in preventing domestic homicides on a national level, exploring the importance of trauma-informed interventions for survivors of abuse, and understanding the potential role of workplaces in addressing domestic violence. We are grateful for our many partners in the London community, and our alliance with researchers and partners in other provinces and countries. We are committed to the development and application of knowledge on the prevention of violence against women and children through the promotion of innovation, collaborative relationships and equality.

This annual report highlights our efforts in 2017-18 as reflected in various activities and grants.

We are fortunate to have such dedicated staff and students that make our work so successful in reaching diverse audiences through our conferences, publications and engagement with the media. We acknowledge the support of our many partners, management committee, advisory committee, research associates, funders and our extended family in the Faculty of Education. As Centre Directors we appreciate the generous support of Western University that has helped to make the Centre for Research & Education on Violence Against Women & Children a model for similar centres in Canada and across the globe.

# Breaking the uncomfortable silence

Dawn and Ed Novak lost their daughter Natalie to domestic violence. Western researchers are using education to prevent this violence from happening to others.

## THANK YOU

Our work would not be possible without the voices of survivors.

A special thank you to the Novaks featured on Western's website ([extraordinary.westernu.ca](http://extraordinary.westernu.ca)) and to our Funders.
