

## **ELEMENTARY AND SECONDARY SCHOOL RESOURCE DOCUMENTS.**

These two documents represent a resource that is intended to promote curriculum initiatives that integrate the learning of skills and attitudes that promote healthy relationships into the curriculum. Rather than having a special assembly or an event, and rather than adding a burden to busy teachers with a crowded curriculum, these lessons can be integrated into provincial expectations for students at every grade level.

These documents include “Safe School” unit plans for every elementary grade level and for selected high school subjects. The resources were compiled by Ray Hughes, M.Ed., and Peter Jaffe, Ph.D., C. Psych, and Erin Howarth, B.Ed.
